K · CON

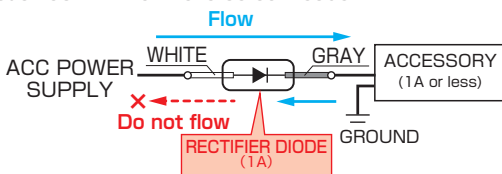

PREVENTS BACKFLOW AND SNEAK CURRENT!

Prevents backflow and sneak current to protect wires for accessories.

WIRING EX. 1

When protecting 1A or less electric device such as LED from reverse connection

WIRING EX. 2

When connecting to the (+) plus wiring side with two power supply outputs

Prevents electrical components from malfunctioning due to current flow into each power supply output side.

Right winker blinking status (Preventing left and right blinking at the same time)
When changing winker bulb to LED.
