APPLICATION	GROM (JC92)、GROM (JC61/JC75)

\* REAR SHOCK LENGTH GROM JC92 : 240mm, GROM JC61/JC75 : 244mm

Great performance on street even with medium-to-long distance. High grade rear shock absorber for comfortability for touring.

Height Adjustment  
240+7mm\*

Rebound Adjustment  
14 clicks

Preload Adjustment  
Non-step

\* All the GROM usable by adjusting height.

Assembled by craftsmen one by one precisely!

PRODUCTION

Each part was manufactured at Taiwan GEARS headquarters, which is the world's top class cutting technology, and they are assembled by craftsmen one by one at GEARS JAPAN. Filling oil and gas, check the operation with the world's best suspension tester and realize the best damper characteristics with high quality and performance.

PERFORMANCE CHARACTERISTICS

After repeated driving tests on the streets and circuits, the best spring rate and damper characteristics are set so that a comfortable feeling can be maintained during high loads on long touring. Equipped with vehicle height adjustment, rebound damping adjustment, and preload adjustment mechanism, a wide range of settings can be made according to the situation.
