### FOR AIR / FUEL SETTING! MUST-HAVE MULTI-MONITOR!

RENEWAL

VEHICLE : CT125 HUNTER CUB (JA55)  
HANDLE BRACE (SILVER) METER STAY

A multimeter required for measuring fuel settings in FI vehicles. In addition to A/F value and throttle opening, engine RPM and battery voltage can also be displayed simultaneously. Organic EL display with excellent visibility.

Includes 3 types of heater-less O<sub>2</sub> sensor harnesses

BAR GRAPH  
(top of monitor)

THROTTLE OPENING  
MAIN

Displays throttle opening from 0 to 100%

SUB MONITOR

AIR-FUEL RATIO (A/F) value  
MAIN

A/F value

SUB MONITOR

ENGINE RPM  
MAIN

Engine RPM

SUB MONITOR

Back to throttle opening

### NEW RISM (THROTTLE OPENING / O<sub>2</sub> / RPM MONITOR)

CODE	PRICE
752-6011100	¥28,000

- COUPLER-ON ● 3 TYPE OF HONDA O<sub>2</sub> SENSOR CONVERT HARNESS incl. ※ O<sub>2</sub> SENSOR USABLE (A/F SENSOR \* LAF SENSOR INCOMPATIBLE)
- MONITOR SIZE : W 71.5mm × H 39mm × T 14mm
- HARNESS LENGTH : 450mm ● HOOK & LOOP FASTENER incl.

#### APPLICATION

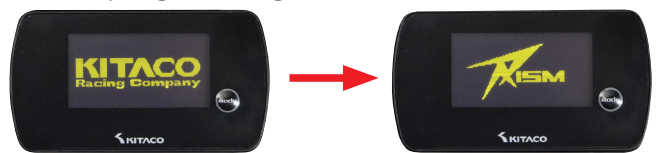

HONDA MINI (O<sub>2</sub> sensor equipped vehicle WITHOUT heater),  
**VEHICLES WITH KITACO I-MAP** ※ Heater model is NOT usable  
● FOLLOWING MODEL USABLE  
GROM (JC61/JC75 ~ JC92-1099999), MONKEY125 (JB02), CT125 · HUNTER CUB (JA55), MONKEY (F1)(AB27), APE50 (F1)(AC16/AC18), SUPER CUB (F1)(AA01) etc.

※ Visibility can be improved by using a separate handlebar brace and meter stay.

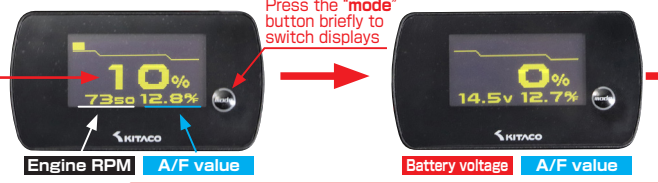

● Display functions

- \* Throttle opening (body sensor output voltage range 0 to 5V)
- \* Engine RPM (body sensor output pulse value range 1 to 99)
- \* Air-fuel ratio (A/F value) Battery voltage (accessory input voltage)

Turn on the power and the opening starts. "KITACO" → "RISM" and then turns to the throttle opening main setting.

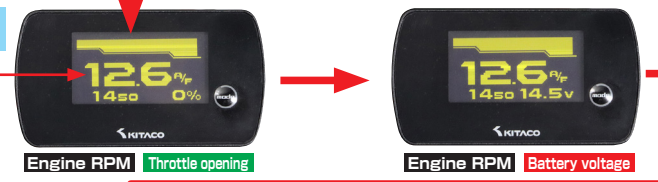

The bar graph increases or decreases according to the throttle opening, engine RPM, etc.

Press the "mode" button briefly to switch displays

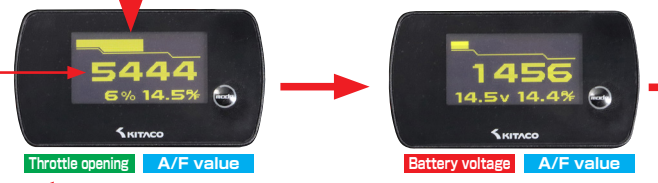

Engine RPM A/F value

Battery voltage A/F value

Engine RPM Throttle opening

Engine RPM Battery voltage

Throttle opening A/F value

Battery voltage A/F value

Battery voltage Battery voltage displays accessory input voltage.
