

IGNITION COIL [TCI/CDI] FULL KIT			
IGNITION METHOD	TCI (Transistor Controlled Igniter)		CDI (Capacitor Discharge Igniter)
CODE	(RED) 754-9011020	(BLACK) 754-9011050	(RED) 754-9011120 (BLACK) 754-9011150
APPLICATION	GROM (JC61 ~ 92) SUPER CUB C125 (JA58/71) SUPER CUB 110 (JA44/59) CROSS CUB 110 (JA45/60) etc.		Honda single cylinder 12V CDI ignition and normal ACGenerator type vehicles (Monkey,Ape,etc.) MONKEY /GORILLA (Z50J-2000001 ~ /AB27-1000001 ~ 1899999) MONKEY BAJA APE 50 (AC16-1000001 ~ 1599999) XR50 MOTARD (AD14) APE 100/-D (HC07/13) XR100 MOTARD (HD13) XR50R/CRF50F (AE03)
ATTENTION!	For single-cylinder vehicles with TCI ignition system.		For single-cylinder vehicles with CDI ignition system.

Thank you for purchasing Kitaco product. Read and understand the instruction before installing.

ATTENTION (MUST READ)

- This part increases the spark of the spark plug and is expected to improve power output and pickup. It is also suitable as a repair part.
- The driver is solely responsible for any damage to this product or related parts due to improper assembly, and we assume no responsibility for any accidents that may result.
- When sparking the plug outside the cylinder for spark checks, etc., wear insulated gloves because the voltage is extremely high in this area.
- This paper is intended for those who have basic knowledge of motorcycle maintenance. Do not work on this product if you do not have the skills and knowledge.
- When installing the product, please be sure to follow the manufacturer's service manual for each vehicle model.

Features of Ignition Coil

This ignition coil increases the discharge voltage compared to the stock coil, and is expected to improve power output, response, and fuel economy.

PACKING LIST		TCI	CDI		
NAME	CODE	QTY	REMARKS		
IGNITION COIL TCI	500mm with a code	-	x1	BLACK/RED	
IGNITION COIL CDI	500mm with a code	-	x1	BLACK/RED	
WASHER	6x13x1.0mm	0900-090-02004	x4	x4	ADJUSTABLE
CAP BOLT	M5x15	050-0500015	-	x1	
CAP BOLT	M6x18	060-0500018	-	x1	
CAP BOLT	M6x25	060-0500025	x2	-	
SPACER COLLAR	11x6.2x5mm	0900-093-00002	x2	-	
IG COIL STAY	MONKEY/APE	754-0500131	-	x1	
EARTH READ WIRES		755-0900000	-	x1	

⚠ The high tension cord on the ignition coil side is not detachable. Removing it may cause damage.

HOW TO INSTALL

IGNITION COIL

± (-) is body ground CDI ignition only

HIGH TENSION CODE

PLUG CAP

IGNITION PLUG

TCI IGNITION [HONDA]

Connect the ECM (ignition signal) side cord to the green terminal of the two ignition coil terminals.

FOR BODY SIDE IGNITION COIL ex.+(black/white)color line

FOR BODY SIDE IGNITION COIL ex.+(pink/blue)color line

CDI IGNITION [HONDA]

FOR BODY SIDE IGNITION COIL ex.+(black/yellow)color line

(BODY EARTH)

- Install the ignition coil in a place where it will not interfere with driving.
- Cut the high tension cord to an appropriate length and screw it into the ignition coil and plug cap.
- ※ Be sure to allow plenty of room for the length of the product, and do not install the product taut. Also, be careful not to remove it while driving.
- After assembly, check that the engine starts up normally.
- When connecting the high-tension cord in the middle, use self-bonding tape for high pressure for complete waterproofing and wrap it around the cord before connecting.
- If the high-tension cord interferes with the stay, please install in a different direction from stock, or use a separate collar to adjust the tensioner.

MOUNTING EXAMPLE

TCI STOCK IG COIL STAY

Adjustment Washer(spacer)

WASHER

SPACER COLLAR

MONKEY/GORILLA (CDI)

FOR BODY SIDE IGNITION COIL +(black/yellow)color line

STOCK IG COIL STAY

CONNECT TO PLUG CAP

Disconnected from the ignition coil. Connected to the vehicle body side harness (green)

APE (CDI)

STOCK IG COIL STAY

GROUND TERMINAL

FOR BODY SIDE IGNITION COIL +(black/yellow)color line

CONNECT TO PLUG CAP

Disconnected from the ignition coil. Connected to the vehicle body side harness (green)

PACKING LIST		CDI
Fig	NAME	QTY
1	IGNITION COIL CDI	x1
2	IG COIL STAY MONKEY/APE	x1
3	CAP BOLT M5x15	x1
4	CAP BOLT M6x18	x1
5	GROUND LEAD	x1
-	WASHER 6x13x1.0mm (adjustable)	x4
